FLAGSHIP 3D EXPERIENCES

FLAGSHIP

Earth Observatory

Photorealistic 3D globe with day/night terminator, atmosphere, clouds, and 30+ satellite orbits — ISS, Hubble, Starlink, GPS.

FLAGSHIP · NASA HD

Lunar Observatory

NASA SVS 8K textures with displacement mapping, real libration, 6 Apollo landing sites, live phase and illumination.

PREMIUM · CINEMATIC

Lunar Flyover

Low-orbit cinematic flight over the Moon. NASA LRO terrain, HUD overlay, autopilot and manual WASD controls.

INTERACTIVE 3D

Solar System Orrery

All 8 planets in real-time JPL positions with accurate orbital paths, planetary data, and smooth 3D camera controls.

REAL-TIME

Orbital Tracker

30+ satellites with SGP4 propagation from NORAD TLEs. Cyberpunk HUD with live telemetry and orbit classification.

EXCLUSIVE NEW FEATURES

NEW

Asteroid Tracker

10 real Near-Earth Objects — Apophis, Bennu, Didymos — with Kepler orbital mechanics, hazard status, and NASA mission data.

NEW

Exoplanet Explorer

21 confirmed exoplanets across 9 star systems — TRAPPIST-1, Proxima Centauri, Tau Ceti — with habitable zone visualization.

NEW · UNIQUE

Deep Space Network

NASA's 3 DSN complexes communicating with Voyager, JWST, Mars rovers and 12 spacecraft. Animated signals in real time.

NEW · UNIQUE

Light Pollution Sim

Bortle 1-9 slider showing real-time impact on your sky. See what light pollution steals — from 7,500 stars to just 100.

AND MUCH MORE

- Tonight's Best
- Telescope Mode (70+ DSOs)
- AR Camera
- AstroQuiz (50+ Qs)
- Astro Weather
- NASA APOD
- 20+ Live Cams
- Photo Planner
- ISS Pass Alerts
- Compare Locations
- Share This Sky
- Accessibility
- Star Trails
- Ambient Sound
- 110+ Messier Objects
- Aurora Borealis
